

## **Industry Training**

There are some training courses available in New Zealand to help companies with energy efficiency.

Green Torque Programme – provided by KD Training trains heavy vehicle drivers in fuel efficient driving techniques, see [http://www.kdtraining.com/index.php?option=com\\_content&view=article&id=88:greentorque&catid=7:industry-training&Itemid=20](http://www.kdtraining.com/index.php?option=com_content&view=article&id=88:greentorque&catid=7:industry-training&Itemid=20)

### **SAFED NZ**

A heavy vehicle driver training programme is being launched by the Ministry of Transport in 2010. Details will be provided soon.
